

June 4, 2009

The Heron Coach House Board is striving to have all walks that are colored or recolored in the future closely match the roof color.

Please remember prior to doing your walk you **MUST have Board approval**. Submit your request at least 30 days before your planned installation.

To maintain uniformity, if a unit owner wishes to install a conventional screen/storm door the frame should be dark bronze.

Again, you **MUST submit your plan 30 days prior to installation to the Board for approval**.
